
Crime Prevention Tips

October is Crime Prevention Month

- Create the habit of preventing crime for your home, car and life!
- Take the one month challenge:

If you follow these suggestions for one month, you'll be on your way to creating a more crime-free lifestyle for you, your family and your community.

Statistically speaking.....

In Jefferson County approximately 60% - 85% of all home burglaries and vehicle break-ins are unforced. Thieves will target unlocked vehicles in driveways and on the street. Homes have been entered through garage doors left open, doors left unlocked and open windows. Thieves will look for the easiest way to take your property!

Opportunity doesn't always knock!

Removing the opportunity for crime to occur is the most important thing you can do!

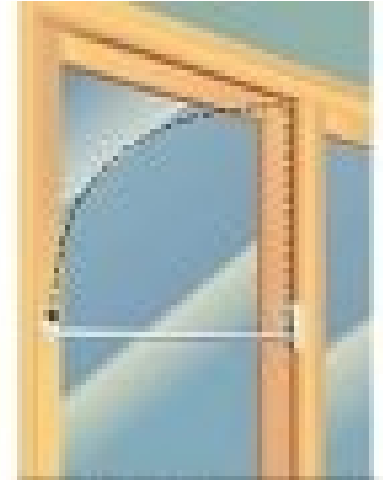

- Removing valuables from your vehicle or putting your property out of view can reduce the temptation for theft.
- Don't leave your keys in your car, even when it's in the garage.
- You have the power to remove the opportunity from the crime triangle!
